

Sangmin Lee

sm.lee@kaist.ac.kr

Education

Korea Advanced Institute of Science and Technology (KAIST) — **Daejeon, Korea | Mar. 2027 - Feb. 2029(Expected)**
M.S. in Data Science, Graduate School of Data Science (GSDS)
• KIRC Lab, advised by Prof. Mun Yong Yi

Jeonbuk National University — **Jeonju, Korea | Mar. 2021 - Feb. 2027(Expected)**
B.S. in Statistics, College of Natural Sciences
• Total GPA of 4.40 / 4.5, Major GPA of 4.47 / 4.5

Research Interests

• Large Language Models (LLMs) for healthcare
• Fine-tuning LLMs specialized for the medical domain
• Clinical decision support and medical knowledge understanding

Publications

[C1] Sangmin Lee, Coauthor A, Coauthor B, and Mun Yong Yi. "Title of Your Paper on Medical-Domain LLM Fine-Tuning." *In Proceedings of the Conference Name (ABBR), 2027.*
[P1] Sangmin Lee*, Coauthor A*, and Mun Yong Yi. "Title of Your Preprint." *arXiv preprint arXiv:XXXX.XXXXX, 2027. (Under Review)*

Experience

CAMTIC Advanced Mechatronics Technology Institute — **Jeonju, Korea | Oct. 2026 - Dec. 2026**
Research Intern, Research Planning Team, Physical AI Demonstration Division

UNIST Vision and Learning Lab — **Ulsan, Korea | Jan. 2026 – Sep. 2026**
Undergraduate Researcher
• Interned at the Vision and Learning Lab, UNIST (advised by Prof. Seungryul Baek), focusing on 3D vision, human mesh recovery (HMR), and hand object interaction (HOI).

Multiscale Lab — **Jeonju, Korea | Jan. 2025 - Dec.2025**
Undergraduate Researcher
• Interned at the Multiscale Lab, JBNU (advised by Prof. Guebin Choi), focusing on data-adaptive approaches in multiscale analysis

Big Data Consortium Overseas Research Program, UNLV — **Las Vegas, NV | Jun. 2025 - Jul. 2025**
Deep Neural Networks for Protein Function Prediction
• Developed and benchmarked three deep learning approaches for enzyme function prediction using ESM-2 protein language model

Statistical Thinking and Society TA — **Jeonju, Korea | Mar. 2025 - Present**
• Prepared and reviewed instructional materials

LG Aimers 6th semester — **Jeonju, Korea | Jan. 2025 - Feb. 2025**

• Completed coursework on Artificial Intelligence and Linear Algebra
• Participated in a data competition using infertility-related medical data

JBNU Big Data Club (JBIG) **Jeonju, Korea | Mar. 2024 - Aug. 2024**
• Participated weekly in Dacon and Kaggle competitions, followed by code presentations during club seminars

Presentations

The 2025 Summer Conference of the Korean Statistical Society **Gyeongju, Korea | Jun. 2025**
• Presented 'Deep Learning-based Neural Granger Causality for Solar Radiation Data' as poster presentation
• Addressed limitations of traditional VAR models in capturing nonlinear dependencies in time series data
• Developed and implemented neural network-based approaches using component-wise MLP (cMLP) and LSTM (cLSTM) models, where each variable is assigned an independent network architecture
• Analyzed Granger causal relationships between solar radiation in Jeonju and key meteorological variables including humidity, temperature, precipitation, and wind speed
• Successfully identified causality structures that aligned with established theoretical relationships in solar meteorology
• Participated in the invited lecture titled *"An Introduction to Statistical Analysis of Networks"*

Awards

2024.06 **Grand Prize** 2024 Jeonbuk National University AI Competition **Jeonbuk National Univ.**
2025.01 **First Prize,** 2024 Big Data Camp: Prompt Engineering Competition **Coss**

Scholarships

2021-2026 **Academic Excellence Scholarship**, Sancheong-gun Local Scholarship **Sancheong-gun**
(Received: 2021.05, 2024.05, 2024.11, 2025.05, 2025.11, 2026.5, 2026.12)
2024.12 **Yellow Belt**, Keun-Saram (Great Person) Project Jeonbuk National Univ. **Jeonbuk National Univ.**
2025.7 **Challenge Award**, J-Point Scholarship Program **JBNU SW-Center**

Academic Service

2027.xx **Reviewer**, Workshop / Conference Name (ABBR) 2027 **Organizer**
2027.xx **Student Volunteer**, Conference Name (ABBR) 2027 **Organizer**

Skills

Programming Python, R, C, C++
APIs & Frameworks PyTorch, Scikit-learn, Transformers, Hugging Face

Others

Certification
• 2022.02 Computer Specialist in Spreadsheet & Database Level-1
• 2025.11 ADsP : Advanced Data Analytics Semi-Professional
• 2025.12 SQLD : SQL Developer
