Sangmin Lee

sm.lee@kaist.ac.kr | Republic of Korea | sangmin1208.github.io | SangMin1208

Education

M.S. **Korea Advanced Institute of Science and Technology (KAIST)**, Data Science, Graduate School of Data Science (GSDS) — Daejeon, Korea — Mar 2027 – Feb 2029
- KIRC Lab, advised by Prof. Mun Yong Yi

B.S. **Jeonbuk National University**, Statistics, College of Natural Sciences — Jeonju, Korea — Mar 2021 – Feb 2027
- Total GPA of 4.40 / 4.5, Major GPA of 4.47 / 4.5

Research Interests

- Large Language Models (LLMs) for healthcare
- Fine-tuning LLMs specialized for the medical domain
- Clinical decision support and medical knowledge understanding

Publications

[C1] Title of Your Paper on Medical-Domain LLM Fine-Tuning — 2027
Sangmin Lee, Coauthor A, Coauthor B, and Mun Yong Yi
Sangmin Lee, Coauthor A, Coauthor B, Mun Yong Yi
(In Proceedings of the Conference Name (ABBR))

[P1] Title of Your Preprint — 2027
Sangmin Lee*, Coauthor A*, and Mun Yong Yi
Sangmin Lee*, Coauthor A*, Mun Yong Yi
(arXiv preprint arXiv:XXXX.XXXXX (Under Review))

Experience

CAMTIC Advanced Mechatronics Technology Institute, Research Intern, Research Planning Team, Physical AI Demonstration Division — Jeonju, Korea — Oct 2026 – Dec 2026 — 3 months

UNIST Vision and Learning Lab, Undergraduate Researcher — Ulsan, Korea — Jan 2026 – Sept 2026 — 9 months
- Interned at the Vision and Learning Lab, UNIST (advised by Prof. Seungryul Baek), focusing on 3D vision, human mesh recovery (HMR), and hand object interaction (HOI)

Multiscale Lab, Undergraduate Researcher — Jeonju, Korea — Jan 2025 – Dec 2025 — 1 year
- Interned at the Multiscale Lab, JBNU (advised by Prof. Guebin Choi), focusing on data-adaptive approaches in multiscale analysis

Big Data Consortium Overseas Research Program, UNLV, Deep Neural Networks for Protein Function Prediction — Las Vegas, NV — June 2025 – July 2025 — 2 months
- Developed and benchmarked three deep learning approaches for enzyme function prediction using ESM-2 protein language model

Statistical Thinking and Society, Teaching Assistant — Jeonju, Korea — Mar 2025 – present — 1 year 8 months
- Prepared and reviewed instructional materials

LG Aimers 6th semester, Participant — Jeonju, Korea
- Completed coursework on Artificial Intelligence and Linear Algebra — Jan 2025 – Feb 2025
- Participated in a data competition using infertility-related medical data — 2 months

JBNU Big Data Club (JBIG), Member — Jeonju, Korea
- Participated weekly in Dacon and Kaggle competitions, followed by code presentations during club seminars — Mar 2024 – Aug 2024, 6 months

Presentations

- **Poster**, The 2025 Summer Conference of the Korean Statistical Society, Gyeongju, Korea (Jun. 2025): *Deep Learning-based Neural Granger Causality for Solar Radiation Data*
- Addressed limitations of traditional VAR models in capturing nonlinear dependencies in time series data, using component-wise MLP (cMLP) and LSTM (cLSTM) models with an independent network for each variable
- Analyzed Granger causal relationships between solar radiation in Jeonju and key meteorological variables, identifying causality structures aligned with established relationships in solar meteorology
- Participated in the invited lecture *An Introduction to Statistical Analysis of Networks*

Awards

Grand Prize, 2024 Jeonbuk National University AI Competition — June 2024
Jeonbuk National Univ.

First Prize, 2024 Big Data Camp - Prompt Engineering Competition — Jan 2025
COSS

Scholarships

- **Academic Excellence Scholarship**, Sancheong-gun Local Scholarship, Sancheong-gun (2021-2026; received 2021.05, 2024.05, 2024.11, 2025.05, 2025.11, 2026.05, 2026.12)
- **Yellow Belt**, Keun-Saram (Great Person) Project, Jeonbuk National Univ. (2024.12)
- **Challenge Award**, J-Point Scholarship Program, JBNU SW-Center (2025.07)

Academic Service

- **Reviewer**, Workshop / Conference Name (ABBR) 2027
- **Student Volunteer**, Conference Name (ABBR) 2027

Skills

Programming
Python, R, C, C++

APIs & Frameworks
PyTorch, Scikit-learn, Transformers, Hugging Face

Certificates

SQLD: SQL Developer — Dec 2025

ADsP: Advanced Data Analytics Semi-Professional — Nov 2025

Computer Specialist in Spreadsheet & Database Level-1 — Feb 2022
